

The Cob Report

Cob is an ancient wall building system
using a mix of clay rich earth, sand, straw and water

SPECIAL GET OUT THE VOTE NEWSLETTER

Dear COB REPORT SUBSCRIBER

Announcing the Cob Research Institute's GET OUT THE VOTE CAMPAIGN

**Do you know that in one month there will be
a crucial vote to approve the cob code?**

IRC Cob Construction Appendix is up for consideration at the ICC Public Comments Hearing on October 26th. Here is your chance to help make the cob code a reality. CRI is asking you to join the campaign and help build the vote to assure that the IRC Cob Construction Appendix becomes a reality.

Please take a look at the attached GET OUT THE VOTE announcement.

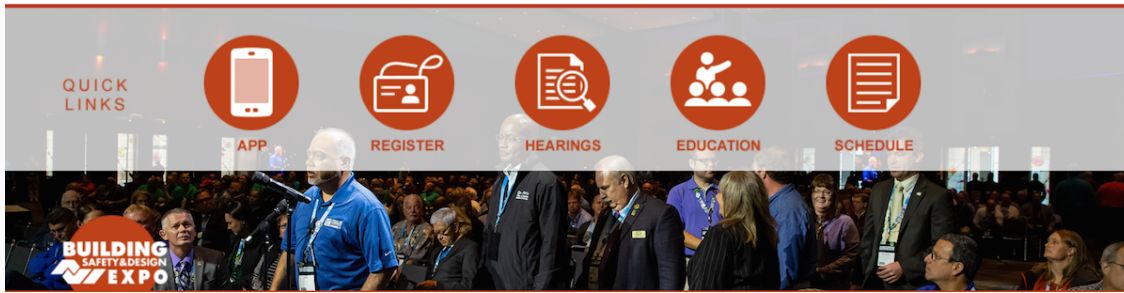

Time is critical and now is the time to act !!!

Thanks for subscribing to the COB REPORT.

Your support of CRI is truly appreciated !

**IMPORTANT COB CODE ANNOUNCEMENT
HELP GET OUT THE VOTE TO APPROVE THE COB CODE**

Join the Cob Research Institute's COB CODE YES VOTE CAMPAIGN. This October 23rd to 30th US Building Officials will gather in Las Vegas for the ICC Public Comment Hearings to vote on proposals for ICC's 2021 International Model Building Codes.

**On October 26th there will be a vote
on CRI's proposed IRC Cob Construction Appendix.**

This important vote will decide if CRI's efforts to include cob in the 2021 International Residential Code (IRC) will succeed. CRI is asking all cob enthusiasts in the US to contact their local building department and meet with or speak to the Building Official. To encourage them as Public Servants to help make cob available to their community. To vote in support of the IRC Cob Construction Appendix at the Las Vegas October Public Comment Hearings (PCH), and in the Online Governmental Consensus Vote after the PCH.

If you are available to take part in this critical support of the cob code please contact Yosi Almog at yosial@gmail.com or the bi-weekly COB CODE YES VOTE CAMPAIGN conference call at (605) 313-5111 with access code 284109 Monday 2-3pm and Thursday 6-7pm (Pacific time)

CRI provides training and a script to guide you through this process and can help identify your local Building Official, see: <https://tinyurl.com/y2gwdx5y> .

Let CRI know if you connect with your Building Official.
Please share this with your friends and other cob enthusiasts!

**A REMINDER WHILE WE HAVE YOUR ATTENTION
DOUBLE YOUR DONATION**

THE CASBA DONATION MATCH IS STILL GOING ON

The California Straw Building Association is continuing their \$3,500 matching donation. Until we reach a total of \$3,500, all new donations will be matched by CASBA dollar for dollar. Donate now and your support of CRI will be doubled.

[DONATE TO CRI](#)

A word about CRI.

The Cob Research Institute is a public interest 501(c)3 non-profit organization founded in 2008 with the mission to remove legal obstacles to building with cob.

CRI needs to be able to support a small staff to do the work of making a cob building code a reality. The needed research, testing, code development, and ultimate gaining of acceptance by the code authorities is expensive and CRI is working to do this on your behalf. Please do your part and support the CRI effort. Become a part of the CRI team ! I'd like to thank you in advance for your generosity.
